INDEX OF SUBJECTS FOR VOLUME 34

Abscess
bacterial killing by neutrophils, 73
P. acnes in mixed infections, 249
Acinetobacter calcoaceticus
immune response in man, 83
outer-membrane-protein antigens, 83
Adherence
B. fragilis, to cell cultures, 51
E. coli, to plastic catheters, 349
effects of catheter materials, 349
H. pylori, to HEp-2 cells, 181
P. aeruginosa, to plastic catheters, 7, 349
S. aureus, to plastic catheters, 349
S. dysenteriae, to cell cultures, 259
S. epidermidis, to plastic catheters, 349
Aeromonas hydrophila
exotoxin profiles, 363
virulence factors, 363
Agglutination
rapid micro-agglutination technique, 29
AIDs (acquired immunodeficiency syndrome)
associated with *M. avium-intracellulare*, 225
Amoxycillin resistance, and oral streptococci, 33
Anaerobes
gram-positive, identification of, 295, 339
see also Bacteroides
Antibiotic resistance
amoxycillin, and oral streptococci, 33
characterisation of *S. aureus* isolates, 109
chloramphenicol, and *S. aureus*, 109
chloramphenicol, and *S. typhi*, 149
of enterotoxigenic *E. coli*, 89
erythromycin, and oral streptococci, 33
gentamicin, and *S. aureus*, 103
methicillin, and *S. aureus*, 109, 193
multiresistance of *S. typhi*, 149
sulphamethoxazole, and Enterobacteriaceae, 153
tetracycline, and *S. aureus*, 109, 193
trimethoprim, and Enterobacteriaceae, 153
Antibiotics and other antimicrobial substances
bactericidal activity of ciprofloxacin, 19
cefuroxime, and peritonitis, 137
chloramphenicol, and activity of ciprofloxacin, 19
polymyxin B, anti-endotoxin activity, 233
rifampicin, and activity of ciprofloxacin, 19
trimethoprim, and *E. coli*, 329
zidovudine, and *E. coli*, 329
Antibodies
against *A. calcoaceticus*, 83
against *B. bronchiseptica*, 159
against *G. lamblia*, 271
against HSV-1, 39
against *L. pneumophila*, 29
against *P. aeruginosa*, 203
against streptococcal opacity factor, 119
see also Monoclonal antibodies
Antigens
A. calcoaceticus, outer membrane proteins, 83
Brucella, outer membrane proteins, 175
of enterotoxigenic *E. coli*, 89
G. lamblia, stool antigen, 271
S. dysenteriae, O-antigen, 259
streptococcal M-antigen, 119
V. cholerae, outer membrane proteins, 167
Antimony resistance, of *S. aureus*, 193
Arsenate resistance, of *S. aureus*, 193
Arsenite resistance, of *S. aureus*, 193
Aspergillus fumigatus
in chronic granulomatous disease, 129
killing by neutrophils, 129
ATB 32A system, 295

Bacteroides
B. fragilis, adherence, 51
B. fragilis, haemagglutination, 51
B. fragilis, killing by neutrophils, 73
B. fragilis, lipopolysaccharide analysis, 253
lipopolysaccharide analysis by PAGE, 253
Bacteriuria, Enterobacteriaceae in, 153
Behçet's syndrome, 39
Bismuth subcitrate, colloidal, 181
BOOKS RECEIVED
A colour atlas of virology (by J. Versteeg), 372
Animal virus pathogenesis. A practical approach (edited by M. B. A. Oldstone), 192
Antiviral compounds from plants (by James B. Hudson), 371
A textbook of parasitology (by Subhash S. Kelkar and Rohini S. Kelkar), 127
Bacterial vaccines (edited by A. Mizrahi), 309
Clinical and molecular aspects of anaerobes (edited by S. P. Borriello), 128
Control of virus diseases (edited by N. J. Dimmock, P. D. Griffiths and C. R. Madely), 191
CRC Handbook of laboratory safety (edited by A. K. Furr), 127
Heterosexual transmission of AIDS (by N. J. Alexander, H. L. Gahelnick and J. M. Spieler), 126
Human immunodeficiency virus: Innovative techniques for isolation and identification. Monographs in Virology, Volume 18. (edited by J. L. Melnick), 309
Lyme borreliosis II (edited by G. Stanek *et al.*), 127
Microbial growth dynamics (edited by R. K. Poole, M. J. Bazin and C. W. Keevil), 191
Molecular aspects of immune response and infectious diseases (Advances in host defense mechanisms, volume 7) (edited by Hiroshi Kiyono, Emilio Jirillo, Claudio Desimone), 371
Oral candidosis (by L. P. Samaranayake and T. W. MacFarlane), 126
Principles and practice of clinical virology. 2nd edition (edited by A. J. Zuckerman, J. E. Banatvala, J. R. Pattison), 371
Progress in medical virology, Vol. 37 (edited by J. L. Melnick), 191
Structure and function of nucleic acids and proteins (edited by Felicia Y. H. Wu and Cheng-Wen Wu), 309
The 4-quinolones: anti-bacterial agents in-vitro (edited by G. C. Crumplin), 310
The bacteria. A treatise on structure and function. Vol. XI. Molecular basis of bacterial pathogenesis (edited by Barbara H. Inglewski and Virginia L. Clark), 126
Viral vaccines. Advances in biotechnological processes, Vol. 14 (edited by A. Mizrahi), 192
Bordetella
B. bronchiseptica, lipopolysaccharide, 159
B. bronchiseptica, serum sensitivity, 159
B. parapertussis, lipopolysaccharide, 159
B. parapertussis, serum sensitivity, 159
B. pertussis, heat-labile toxin, 45
B. pertussis, lipopolysaccharide, 159
B. pertussis, serum sensitivity, 159
Brucella
monoclonal antibodies, 175

outer-membrane-protein antigens, 175
passive immunity in mice, 175

Cadmium resistance, of *S. aureus*, 193
Candida albicans
in chronic granulomatous disease, 129
killing by neutrophils, 129
CAPD (continuous ambulatory peritoneal dialysis), 137
Capsule, of *B. fragilis*, 51
Catheters
adherence of *P. aeruginosa*, 7, 349
materials, bacterial adherence and viability, 349
Cefuroxime treatment, in peritonitis, 137
Cell cultures
adherence of *B. fragilis*, 51
adherence of *H. pylori*, 181
adherence of *S. dysenteriae*, 259
assay for *B. pertussis* toxin, 45
cytotoxicity of *P. multocida*, 333
Chemiluminescence, 233
Chloramphenicol
and bacterial activity of ciprofloxacin, 19
resistance of *S. aureus*, 109
resistance of *S. typhi*, 149
Chloride ions
uptake by human leucocytes, 285
Cholera toxin-like factor
of *A. hydrophila*, 363
Chromatography, 159
affinity, 167
gas liquid, 295
high performance liquid, 213, 285
Ciprofloxacin
bactericidal activity against *E. coli*, 19
Colonic loop
pathogenicity of *T. hyodysenteriae* haemolysin, 97
Complement
in bacterial killing by abscess neutrophils, 73
serum sensitivity of *Bordetella* spp., 159
Copro-diagnosis, of *G. lamblia*, 271
Culture media *see* Media
Cystic fibrosis, 203, 213
Cytotoxins
haemolysin of *T. hyodysenteriae*, 97
in pathogenesis of *A. hydrophila*, 363

Dialysis cultures, *Legionella* spp., 113
Diarrhoea, enterotoxigenic *E. coli*, 89
DNA
gyrase, 19
hybridisation, 225, 265
in polymerase chain reaction, 39
restriction analysis, 149, 225, 265

Eggs, and salmonella food-poisoning, 65
Electronmicroscopy
adherence of *H. pylori*, 181
adherence of *P. aeruginosa*, 7
pathogenicity of *T. hyodysenteriae*, 97
scanning, 7, 97
transmission, 97
Electrophoresis
crossed immuno-electrophoresis, 203
differentiation of anaerobic gram-positive cocci, 339
see also PAGE; SDS-PAGE
ELISA
characterisation of *G. lamblia* antigen, 271
copra-diagnosis of giardiasis, 271
dermonecrotic toxin of *P. multocida*, 333
V. cholerae antigens, 167
Endotoxin
monoclonal antibodies to lipid A, 233
priming of polymorphonuclear leucocytes, 233
see also Lipopolysaccharide
Enterobacteriaceae
plasmids, 153
trimethoprim resistance, 153
in urinary tract infections, 153
Enterocytes
pathogenicity of *T. hyodysenteriae*, 97
Enterotoxins
of *A. hydrophila*, 363
of enterotoxigenic *E. coli*, 89
Enzyme profiles
identification of *Peptostreptococcus* spp., 295
Epidemiology
clonal analysis of *H. influenzae*, 277
streptococcal opacity factor as marker, 119
typing of coagulase-negative staphylococci, 245
typing of *N. meningitidis*, 265
Erythromycin resistance, of oral streptococci, 33
Escherichia coli
adherence to catheter materials, 349
antibiotic resistance assays, 89
bactericidal activity of ciprofloxacin, 19
biotyping, 89
in chronic granulomatous disease, 129
enterotoxigenic (ETEC), 89
killing by neutrophils, 73, 129
in mixed cultures with *P. acnes*, 249
plasmids, 89
priming of leucocytes by endotoxin, 233
role of SOS response, 329
trimethoprim sensitivity, 329
zidovudine sensitivity, 329
Exotoxins, of *A. hydrophila*, 363

Faeces, *G. lamblia* antigen in, 271
Fatty acids, volatile
enzyme profiles of *Peptostreptococcus* spp., 295
Fluorescence assays
Legionella spp., and iron, 113
Food-poisoning
review of eggs and salmonella, 65
Furunculosis, 323

Gastritis, *H. pylori*-related, 181
Genital tract
mouse model of gonococcal infection, 355
Gentamicin resistance, in *S. aureus*, 103
Giardia lamblia
characterisation of stool antigen, 271
copro-diagnosis of giardiasis, 271
Giardiasis, 271
Glycocalyx, of *H. pylori*, 181
Gonococci *see Neisseria gonorrhoeae*
Granulomatous disease, chronic, 129
Guinea-pigs
dermonecrotic test, and *P. multocida*, 333

Haem
iron sources for *H. ducreyi*, 317
Haemagglutination
by *B. fragilis*, 51
by *H. pylori*, 181
by *S. dysenteriae*, 259
Haemolysin
of *A. hydrophila*, 363
of *L. monocytogenes*, 13
of *T. hyodysenteriae*, 97
Haemophilus
H. ducreyi, bioassay of iron sources, 317
H. influenzae, clonal analysis of whole cell polypeptides, 277

H. influenzae, epidemiology, 277
H. influenzae, outer membrane protein subtype distribution, 313
Helicobacter pylori
adherence to HEp-2 cells, 181
glycocalyx, 181
soluble haemagglutinins, 181
Herpes simplex virus type-1 (HSV-1)
antibodies, 39
detection of DNA, 39
Hydrogen peroxide production
by *Mycoplasma* spp., 219
Hydrophobicity of *P. aeruginosa*, 7

Ileal loop
pathogenicity of *T. hyodysenteriae*, 97
Immune response, to *A. calcoaceticus*, 83
Immunisation
mice against *Salmonella*, 57
Immunoblotting
antibodies to *A. calcoaceticus*, 83
antibodies to *P. aeruginosa*, 203
dermonecrotic toxin of *P. multocida*, 333
V. cholerae antigens, 167
Immunocompromised host
pathogenicity of *L. monocytogenes*, 13
Immunoglobulins
IgG, antibodies to *A. calcoaceticus*, 83
IgG, monoclonal antibodies to *Brucella*, 175
IgG, monoclonal antibodies to *V. cholerae*, 167
IgM, monoclonal antibodies to lipid A, 233
Infective endocarditis, 33, 323
Iron regulation
antibodies to membrane proteins of *A. calcoaceticus*, 83
antibodies to membrane proteins of *P. aeruginosa*, 203
human lactoferrin binding by *S. aureus*, 323
sensitivity of *Legionella* spp., 113
sources of iron for *H. ducreyi*, 317

Klebsiella pneumoniae
in mixed infection with *P. acnes*, 249

Lactoferrin binding, by *S. aureus*, 323
Legionella spp.
L. pneumophila rapid micro-agglutination test, 29
mechanisms of iron acquisition, 113
sensitivity to iron chelators, 113
Leucocytes
detection of DNA of HSV-1 in, 39
see also Neutrophils; Polymorphonuclear leucocytes
Lipid A
monoclonal antibodies, 233
priming of polymorphonuclear leucocytes by endotoxin, 233
Lipopolysaccharide (LPS)
A. calcoaceticus, immune response, 83
adhesion and haemagglutinating activity of *S. dysenteriae*, 259
Brucella antigens, 175
monoclonal antibodies to lipid A, 233
priming of polymorphonuclear leucocytes, 233
profiles, of *Bacteroides* spp., 253
serum resistance of *Bordetella* spp., 159
Listeria monocytogenes, pathogenicity, 13
Listeriolysin, 13
Listeriosis, 13

Media
defined, for coagulase-negative staphylococci, 143
iron sources for *H. ducreyi*, 317

Meningitis
H. influenzae infection, 313
N. meningitidis infection, 265
Mercury resistance, of *S. aureus*, 193
Metal ions, resistance of *S. aureus*, 193
Methicillin resistance, of *S. aureus*, 109, 193
Monoclonal antibodies
against *Brucella*, 175
against lipid A, 233
against *V. cholerae* O1, 167
effects of priming polymorphonuclear leucocytes by endotoxin, 233
Mouse model
gonococcal genital infection, 355
immunocompromised host, 13
passive immunity to *Brucella*, 175
pathogenicity of *L. monocytogenes*, 13
pathogenicity of *P. acnes* in mixed infections, 249
vaccination against *Salmonella*, 57
Mycobacterium spp.
identification by polypeptide profiles, 1
M. avium-intracellulare, associated with AIDS, 225
M. avium- intracellulare, plasmid analysis, 225
Mycoplasma spp.
hydrogen peroxide production, 219
oxygen uptake, 219

Neisseria
N. gonorrhoeae, opacity variants, 355
N. gonorrhoeae, phagocytosis by polymorphonuclear leucocytes, 285
N. gonorrhoeae, stimulation of chloride ion uptake, 285
N. meningitidis, restriction fragment length polymorphisms, 265
N. meningitidis, epidemiological typing, 265
Neutrophils
abscess-derived, and bacterial killing, 73
in chronic granulomatous disease, 129
non-oxidative microbicidal mechanisms, 129
Nocardia asteroides
in chronic granulomatous disease, 129
killing by neutrophils, 129

Oligosaccharides, of *Bordetella* spp., 159
Opacity factor, streptococcal, 119
Oral infections
antibiotic resistant streptococci, 33
HSV-1 mouth ulcers, 39
and infective endocarditis, 33
Outer membrane protein (OMP)
antigens of *A. calcoaceticus*, 83
antigens of *Brucella*, 175
antigens of *V. cholerae* O1, 167
of *P. aeruginosa*, antibodies to, 203
subtype distribution of *H. influenzae*, 313
Oxygen, uptake by fermentative *Mycoplasma* spp., 219

PAGE
lipopolysaccharide profiles of *Bacteroides* spp., 253
see also SDS-PAGE
Pasteurella multocida
dermonecrotic toxin production, 333
in respiratory tract infection, 333
Penicillin resistance, of *S. aureus*, 109
Peptostreptococcus spp.
differentiation by protein electrophoresis, 339
enzyme profile, 295
laboratory identification, 295, 339
volatile fatty acids, 295
Peritonitis
in continuous ambulatory peritoneal dialysis, 137

Phage typing, of *S. aureus*, 109
Phagocytosis
  by abscess-derived neutrophils, 73
  gonococci, by human leucocytes, 285
Pili, of *N. gonorrhoeae*, 285
Plasmids
  analysis of *M. avium-intracellulare*, 225
  E. coli, multiple drug resistance, 89
  gentamicin resistance of *S. aureus*, 103
  metal ion resistance of *S. aureus*, 193
  methicillin resistance of *S. aureus*, 193
  S. typhi, multiple drug resistance, 149
  transfer, in *S. aureus*, 103
  trimethoprim resistance of Enterobacteriaceae, 153
Polymerase chain reaction
  detection of HSV-1 DNA, 39
Polymorphonuclear leucocytes (PMNLs)
  in chronic granulomatous disease, 129
  inhibition of priming by endotoxin, 233
  non-oxidative microbicidal mechanisms, 129
  phagocytosis of *N. gonorrhoeae*, 285
Polymyxin B, anti-endotoxin activity, 233
Polypeptide profiles
  of *Mycobacterium* spp., 1
Poultry
  salmonella food-poisoning, 65
PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND, Vol. 34 No. 4 April 1991. pp i–xii
Propionibacterium acnes
  pathogenicity in mixed infections, 249
Protease production, by *S. aureus*, 109
Protein electrophoresis
  anaerobic gram-positive cocci, 339
Proteus mirabilis
  killing by abscess-derived neutrophils, 73
Pseudomonas aeruginosa
  adherence to plastic catheters, 7, 349
  antibodies to iron-regulated membrane proteins, 203
  antibodies to outer membrane proteins, 203
  anti-staphylococcal substance, 213
  in cystic fibrosis, 203, 213
  hydrophobicity, 7
  mucoid strains, 7, 203
Pyrolysis mass spectrometry, 245

4-Quinolones
  bactericidal activity of ciprofloxacin, 19

Radiometry, 7, 285, 349
Restriction analysis
  antibiotic-resistance plasmid of *S. typhi*, 149
  plasmids of *M. avium-intracellulare*, 225
Restriction fragment length polymorphisms in *N. meningitidis*, 265
Rhamnose fermentation
  by enterotoxigenic *E. coli*, 89
Rifampicin
  and bactericidal activity of ciprofloxacin, 19

Salmonella
  eggs and food-poisoning review, 65
  manipulation of aromatic dependence, 57
  S. enteritidis in eggs, and food-poisoning, 66
  serotype Bovismorbificans, 57
  S. minnesota, priming effects of endotoxin, 233
  S. typhi, multiple drug resistance plasmid, 149
  S. typhimurium, and food-poisoning, 68
  vaccine, 57
SDS-PAGE
  clonal analysis of *H. influenzae*, 277
  lipopolysaccharide of *Bacteroides* spp., 253
  lipopolysaccharide of *Bordetella* spp., 159
  outer-membrane proteins of *P. aeruginosa*, 203
  polypeptide profiles of *Mycobacterium* spp., 1
  tricine-SDS system, 253
  V. cholerae antigens, 167
  whole cell polypeptides of *H. influenzae*, 277
Septicaemia, and *S. aureus*, 323
Serology
  rapid micro-agglutination technique, 29
Serratia marcescens
  in chronic granulomatous disease, 129
  killing by neutrophils, 129
Serum
  passive protection of mice against *Brucella*, 175
  sensitivity of *Bordetella* spp., 159
Shigella dysenteriae
  adherence, 259
  haemagglutinin, 259
  lipopolysaccharide, 259
Silver staining
  SDS-PAGE lipopolysaccharide profiles, 159
Slime formation
  by coagulase-negative staphylococci, 143
SOS response, in *E. coli*, 329
Southern blotting, 225, 265
Staphylococci
  coagulase-negative, defined medium for, 143
  coagulase-negative, epidemiological typing, 245
  coagulase-negative, pyrolysis mass spectrometry, 245
  coagulase-negative, slime production, 143
  S. aureus, adhesion to catheters, 349
  S. aureus, antibiotic sensitivity assay, 109
  S. aureus, anti-staphylococcal acitivity of *P. aeruginosa*, 213
  S. aureus, in chronic granulomatous disease, 129
  S. aureus, gentamicin resistance, 103
  S. aureus, human lactoferrin binding, 323
  S. aureus, killing by neutrophils, 73, 129
  S. aureus methicillin resistance, 193, 213
  S. aureus in mixed infection with *P. acnes*, 249
  S. aureus, phage typing, 109
  S. aureus, plasmids, 103, 193
  S. aureus resistance to metal ions, 193
  S. aureus tetracycline resistance, 193
  S. epidermidis, adherence to catheters, 349
Streptococci
  antibodies against opacity factor, 119
  epidemiological marker, 119
  and infective endocarditis, 33
  M-type antigen, 119
  oral, and antibiotic resistance, 33
Streptomycin resistance, of *S. aureus*, 109
Sulphamethoxazole
  resistance of Enterobacteriaceae, 153
Swine dysentery, 97

Tetracycline resistance, of *S. aureus*, 109, 193
Toxic shock syndrome, 323
Toxins
  dermonecrotic, of *P. multocida*, 333
  exotoxins of *A. hydrophila*, 363
  heat-labile, of *B. pertussis*, 45
  see also Cytotoxins; Endotoxin; Enterotoxins
Transferrins
  sensitivity of *Legionella* spp., 113
Treponema hyodysenteriae
  haemolysin, 97
  virulence factor, 97
Trimethoprim resistance
  of Enterobacteriaceae, 153
  SOS response of *E. coli*, 329
Typhoid, 149

Urinary tract infection
Enterobacteriaceae in, 153

Vaccine, against *Salmonella*, 57
Vibrio cholerae O1
monoclonal antibodies, 167
outer-membrane-protein antigens, 167
Virulence factors
A. hydrophila, 363
B. bronchiseptica, 159
H. influenzae, 313
L. monocytogenes, 13
N. gonorrhoeae, 355
opportunist pathogens in chronic granulomatous disease, 129
P. acnes, 249
P. multocida, 333
T. hyodysenteriae, 97

Western blotting, *Bordetella* spp., 159

Zidovudine
SOS response of *E. coli*, 329
Zinc resistance, of *S. aureus*, 193

INDEX OF AUTHORS FOR VOLUME 34
